### ***Important Reverence Sizing Tips:***

**1.** Do not choose your costume size based on the girth measurement. Bust, Waist and Hips are the most important measurements. It is not wise to size up or down when one measurement doesn't fall in the same size range as the rest of the measurements. For example, when the bust and hips are fitting in the size AS but the waist is in the AM size, don't size up, stick with the AS.

**2.** Please don't choose a costume size based on what you "usually" order from other costume companies. Our size chart is unique and it's very likely that you will order a size smaller from us than what you might assume you will need. Just be safe and plug in all the measurements so that you will be very satisfied with the fit.
